- Place a tool by moving the hand to the place where you want the tool. Press the joystick button.*

Tool Key	
Bridge	Place in holes in the floor.
Wall	Place along the floor where there are no holes.
Spring	Place along the floor where there are no holes.
Paint Can	Place on the floor where the ball will pass through it and change color.

- Start the ball rolling by placing the hand on top of the hand print in the upper right corner and press the joystick button.*
- Open or close a bridge by moving the joystick left or right.
- Raise or lower a wall by moving the joystick up or down.
- Spring the ball up to the next floor by pressing the joystick button* when the ball rolls on top of the spring.

HINTS

1. Use only as many tools as you need. Leftover tools can be saved for the next round.
2. If you pick up a tool you don't want, take it over to the box in the upper left corner and press the joystick button.*
3. You can spring the ball up through a floor and make a new hole.
4. If you place the springs carefully, you can create a "relay." Bounce the ball up one floor and then up another.
5. You are rewarded with more energy when you use a spring.
6. Place a paint can in front of a prize of the same color and win double points by having the ball turn the same color before it passes the prize.

Logic Levels™
Proof-of-Purchase

Cartridge

- Be sure the computer is turned off.
- Plug the joystick into Port 2.
- Insert the cartridge into the slot. Be sure the label faces you.
- Turn on the television or monitor and the computer.
- After playing, be sure the computer is turned off before removing the cartridge.

APPLE

Disk

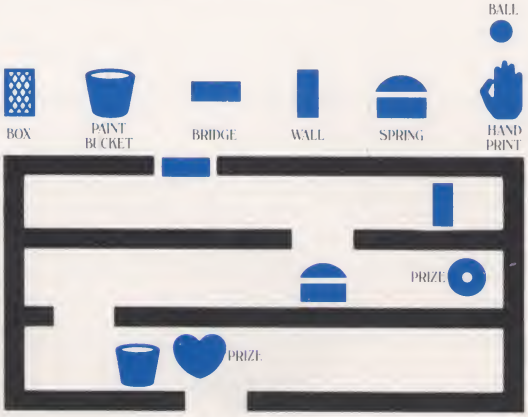
- Make sure the joystick is plugged in.
- Put the disk into the disk drive and close the door.
- Turn on the monitor and the computer.

HOW DO I WIN?

Try to get the ball through the maze before the energy supply runs out. Score as many points as you can be directing the ball past all the prizes. If the ball is painted the same color as the prize it passes, LOGIC LEVELS gives you double points. And you'll be rewarded more points for any energy that you didn't use up.

WHAT DO I DO?

- Pick up a tool by using the joystick to guide the hand to the tool. Press the joystick button.*



(continued on back of page)

PARENTS

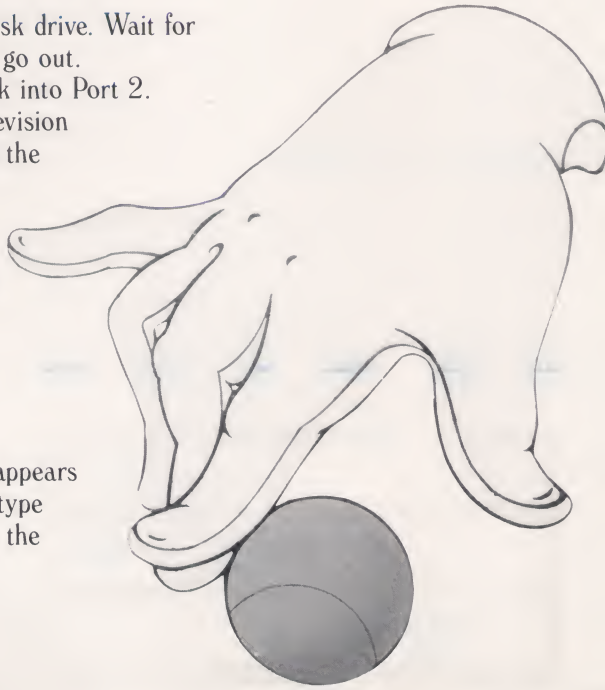
LOGIC LEVELS™ provides players with the opportunity to exercise logic and planning skills in exciting and challenging ways. Players learn to position "tools" throughout the building to create a path that directs a rolling ball past numerous prizes. But only careful and creative planning will get you to the highest score.

FISHER-PRICE™ Learning Software is designed to make it easy for children to learn through creative play, needing little more than imagination and a joystick. These brief instructions for playing will help you get off to a quick start.

LOGIC LEVELS was designed and developed by Frieda Lekkerkerker Inc.

HOW DO I START?

COMMODORE 64

Disk


- Turn on your disk drive. Wait for the red light to go out.
- Plug the joystick into Port 2.
- Turn on the television or monitor and the computer.
- Put the disk into the disk drive and close the door.
- Type LOAD "FP", 8 and press the RETURN key.
- Once READY appears on the screen, type RUN and press the RETURN key.
